

HealthTalks

WHAT WOMEN
DON'T WANT:
VARICOSE VEINS

Wednesday, April 25 / 5:30 p.m.

Rockwood Main Clinic / 400 E. Fifth Avenue / Second Floor Conference Room

Varicose veins most commonly develop in legs and ankles due to faulty vein valves and weakened vein walls. Varicose veins may be a sign of a more serious health problem requiring treatment. **Dr. Renu Sinha** will cover the causes and new treatment options available for varicose veins and other related health conditions. There will also be a Q & A session, as well as a chance to hear the experiences of patients who have gone through varicose vein treatments. Dr. Sinha specializes in the treatment of varicose veins and is certified by the American Board of Surgery and the only physician in Spokane to achieve certification by the American Board of Phlebology.

Reservations are encouraged. Call (509) 755-6570 or e-mail bcaldwell@rockwoodclinic.com.

HealthTalks are free and open to the public and is co-sponsored by Rockwood and Biolitec.
